

SOCRA sincerely appreciates the consideration given to the candidates regarding their nomination as officers and directors of the Society. Please review the candidate profiles included within the following pages.

Duties of President:

The President shall preside over all meetings, in general, supervise all of the affairs of the corporation, may sign documents required to be signed for the Board, serve as an ex-officio member of all committees, and have such other duties as may be prescribed by the Board. The President will serve as the primary staff or management company liaison.

Duties of Secretary:

The Secretary shall oversee the maintenance of the minutes of all meetings of the Board, and may sign documents on behalf of the Board of Directors. The Secretary shall assure that there is maintenance of the Archives. The Secretary should assume the role of parliamentarian.

Duties of Director:

Directors provide representation, support, oversight and development for the membership of the Society. Membership on the SOCRA Board of Directors is intended to offer the society oversight and leadership based on the individual's experience in clinical research and based on their expertise in healthcare.

Board members are asked:

- To contribute their experience and expertise to discussions related to issues important to the clinical research community that would enhance SOCRA's educational programming
- To encourage and develop relationships with organizations that may contribute to SOCRA's educational programming through educational grants
- To encourage potential sponsors and contributors to support our publications and exhibit at our conferences
- To develop membership through contacts and presentations to the healthcare community
- To volunteer to participate in SOCRA's educational programming as a speaker, session chairperson or program chairperson in order to utilize their expertise to further the mission of the Society

Vision Statement:

I am deeply grateful and honored to be nominated for the position of President of the SOCRA Board of Directors. Having been associated with SOCRA for over two decades, both as a member and a director, I have had the privilege of working alongside remarkable leaders in the clinical research industry. Throughout this time, I've observed how SOCRA has adeptly navigated challenging times with thoughtfulness and innovation, solidifying its status as a premier organization in clinical research.

Throughout my career in research, I have undertaken a variety of roles, from coordinating clinical trials to overseeing community-based participatory research projects, and spearheading initiatives aimed at reducing health disparities, especially in rural health areas. Currently, I am dedicated to leading community engagement efforts, focusing on developing the healthcare workforce in rural and underserved communities. This is achieved through sustainable community and academic partnerships aimed at addressing the healthcare provider shortage and enhancing healthcare access.

My vision for SOCRA is to see the organization continue to build upon its longstanding tradition of excellence, further supporting and developing its membership and the research profession at large. If elected as President, I commit to serving as a fervent ambassador for SOCRA, leveraging my skills and experiences to contribute to its ongoing success. Additionally, I aim to champion equity and inclusion within all facets of clinical research, ensuring that these principles are at the forefront of our endeavors.

Vision Statement:

I am honored to be nominated for the position of SOCRA President. My purpose is to empower individuals by “paying it forward” which aligns with SOCRA’s mission. Over the past 17 years, SOCRA has provided me with exceptional career-building educational opportunities and mentorship, which have significantly contributed to my professional accomplishments.

As the Chairperson of the Houston Galveston SOCRA Chapter for 11 years, I have successfully developed and implemented various career-building and networking opportunities for our 1000+ chapter members and beyond. As a member of the SOCRA Certification Committee for the past six years, I have contributed to the development of the certification exam for our professionals. Additionally, I am honored to have served as a SOCRA Board of Director since 2021. My role as Director has given me the opportunity to extend my support towards members and outreach through my board service.

As President, I am committed to serving my fellow clinical research colleagues/community and supporting them in their professional endeavors. If I am elected as your SOCRA President, I promise to diligently work towards fulfilling SOCRA's mission. This includes dedicating my time and skills to represent our members' needs and interests by developing educational programs, providing networking opportunities, and expanding our community relationships. I am deeply committed to giving back to our community, and I am confident that this position will provide me the opportunity to continue pursuing this calling with even more dedication. Thank you for considering my nomination.

Speaker, Annual Conference 2012, 2017-2020
Poster Presenter, Annual Conference 2010, 2014
Author, SOCRA Source, 2014

Vision Statement:

My research experience includes pediatric clinical trials, Post-Acute Sequelae of COVID-19 (PASC), and most recently aging research. In these areas I have supported and managed innovative research, built and led research teams, and ensured regulatory compliance. However, what I enjoy most is training, coaching, and supporting research staff and empowering them to do their work in the most ethical, effective, and compliant ways. Supporting the professional development of clinical research professionals is crucial in this highly regulated and ever-changing landscape. The pandemic has changed how we do this important work, while also elevating the importance of rapid high-quality clinical research. Even so, the profession and the workforce are facing significant challenges as clinical research tries to keep pace in this golden era of innovation. I believe with all my heart that SOCRA serves a critical need, and gladly volunteer my time to move the SoCRA mission forward and support the membership in advancing the profession.

Prior involvement in the planning for Annual Conferences and hosting other conferences and webinars gave me great insight into the mission and organization of SOCRA. Yet serving on the Board of Directors has enlightened me to the greater challenges we all face. Extending my service to the Board of Directors as Secretary would allow me to further support the education and professional development needs of our clinical research professionals, and I would be proud to serve the research community in this way.

Vision Statement:

I was so excited to learn about this nomination, specifically the opportunity to become an advocate for clinical trial education and training for all SOCRA members. As a Quality Management Coordinator for the Mayo Clinic Comprehensive Cancer Center (MCCCC) our focus has been on creating, implementing, and sustaining an enterprise Quality Management System (QMS), which includes the establishment, maintenance, and professional development of employees, retention of all MCCCC documentation, policies, procedures, etc. Additionally, my personal love of learning and teaching has allowed me to transcend my enthusiasm for clinical trials training to an adjunct faculty position for St. Cloud State University’s Applied Clinical Research Program; and an opportunity to become a co-chair for the SEMN SOCRA Chapter. Here, I along with wonderful colleagues and education members, have been able to present on numerous clinical trial topics and obtain feedback on how to improve year after year. My goal in becoming a member of the SOCRA Board of Directors will allow me to serve the membership by carrying our excitement for clinical trial research and extending it through new technologies and educational experiences for all. This is because learning through discovery transports knowledge to new heights. Afterall, “If we knew what it was, we were doing, it would not be called research, would it?”- Albert Einstein.

Vision Statement:

As a member of the Board of Directors over the past year, I have had the privilege of working with and learning from fellow board members while gaining a greater understanding of SOCRA operations, processes, and vision. I plan to continue to support the SOCRA mission by promoting the clinical research profession through quality education and training and supporting a recognized and respected CCRP Certification Program.

As a Co-Chair of the Nashville SOCRA Chapter, I have endeavored to create learning and networking opportunities, mentor local members, promote members' professional development, and elevate under-represented voices in clinical research. I plan to continue to do so at the national level.

My interest in clinical research ethics has led me to pursue a master's degree in Bioethics. Clinical research requires the use of human participants, and we are tasked with fully protecting them while collecting the data needed to answer research questions to improve health worldwide. We must promote research integrity and develop ethical thinking in clinical researchers and staff. We must examine the past and learn from it. We must also look forward and prepare ourselves for what may come next.

My experience in research spans basic science, animal studies, clinical research, research administration, and bioethics. SOCRA has helped me expand my knowledge, develop leadership skills, and network locally, nationally, and internationally. Utilizing my experience, I hope to contribute to the forward thinking of the Board—using the past to help inform the future and helping our membership to learn, adapt, and thrive in clinical research. Thank you for the opportunity to continue to serve the Society's membership and to further the mission of SOCRA.
