

SOCRA sincerely appreciates the consideration given to the candidates regarding their nomination as officers and directors of the Society. Please review the candidate profiles included within the following pages.

Duties of President:

The President shall preside over all meetings, in general, supervise all of the affairs of the corporation, may sign documents required to be signed for the Board, serve as an ex-officio member of all committees, and have such other duties as may be prescribed by the Board. The President will serve as the primary staff or management company liaison.

Duties of Secretary:

The Secretary shall oversee the maintenance of the minutes of all meetings of the Board, and may sign documents on behalf of the Board of Directors. The Secretary shall assure that there is maintenance of the Archives. The Secretary should assume the role of parliamentarian.

Duties of Director:

Directors provide representation, support, oversight and development for the membership of the Society. Membership on the SOCRA Board of Directors is intended to offer the society oversight and leadership based on the individual's experience in clinical research and based on their expertise in healthcare.

Board members are asked:

- To contribute their experience and expertise to discussions related to issues important to the clinical research community that would enhance SOCRA's educational programming
- To encourage and develop relationships with organizations that may contribute to SOCRA's educational programming through educational grants
- To encourage potential sponsors and contributors to support our publications and exhibit at our conferences
- To develop membership through contacts and presentations to the healthcare community
- To volunteer to participate in SOCRA's educational programming as a speaker, session chairperson or program chairperson in order to utilize their expertise to further the mission of the Society

Vision Statement:

It is an honor to be nominated for the Office of President. SOCRA has been incredibly valuable for my career development, providing opportunities for continued education, growth, and networking. As a Chapter Chair and current Board member, it has been my goal to facilitate similar opportunities for SOCRA members. As President, I would continue working with the Board to support these efforts and build on the quality educational programming and continued growth of our association. In this role, I would also draw on my own experiences in the research enterprise to support and encourage members in their own professional pursuits. SOCRA represents integrity, excellence, and professionalism in the clinical research industry. It is by far the premier organization for clinical research professionals, and it would be my privilege to serve as President and continue to work with the Board to support the educational needs of our membership and promote excellence and quality in clinical research.

Vision Statement

I have been an active member of SOCRA since 2006 and certified since 2007. The SOCRA community has allowed me to grow and foster my knowledge in clinical research and to share this knowledge with my colleagues and peers. Both the local and national SOCRA community has provided me the space to continue to adapt and see many different perspectives in the ever evolving world of research.

I will continue to work with the Board of Directors upholding the mission of SOCRA overseeing and providing high quality education, mentoring and certification. I will work to bring our peers together to share knowledge and experience in the consistently changing industry, identifying ways we all can work more efficiently without impacting the quality of the important work we all do. Having held various positions in both the academic and industry space as well as serving on the SOCRA Board of Directors for the last four years I am able to see the big picture from both sides. I will bring my experience to the position to oversee the education and networking we provide all of our members.

I am honored and humbled to be nominated for the President-Elect of SOCRA. Thank you for your consideration in allowing me to serve you as incoming president.

Vision Statement:

Having had the pleasure of serving as a Director on the SOCRA Board, I have gained a new-found appreciation for the work that is done by both the organization and its membership. SOCRA has served as an unwavering and dedicated organization that has provided us with education and professional development under many different circumstances. Our membership has been steadfast and dedicated to solving our world's most pressing issues and continues to persevere even under exceptional circumstances. I find inspiration by so many of you through the experiences you share at our events. As an educator, I'm proud to share your stories and commend you all as admirable examples of professionalism for the next generation of clinical research professionals. From a personal perspective, I take so much pride in being able to serve SOCRA in providing high quality education and professional development opportunities to ensure that we remain current in our chosen profession. For a last 3 years in addition to being a Director, I've also served as the co-chair of the Canadian Regulatory Conference where we've been able to expand our relationship with Health Canada and foster stronger relationships between our industry and the regulator. I've also been able to bring a novel perspective to our Toronto Chapter by having more career driven discussions to help those in the field develop and advance in this profession through mentorship and guidance while also providing a forum for those interested in joining our profession to learn more about our careers. This has served as an incredibly successful initiative that we look forward to continuing in the years ahead. I'm hopeful that with your vote, I will be able to remain on the Board in the capacity of Secretary where I can continue in providing service to this great organization not only by ensuring our critical documentation remains in order, but also providing support in many of the great initiatives that are ongoing.

Chairperson, UAMS College of Public Health Honor Council, 2008 – 2009
Member, UAMS College of Public Health Honor Council, 2007 – 2009

Vision Statement

Over the last 20 years I have held several positions in human subjects research: study coordinator, regulatory manager, auditor, and now Research Compliance Audit Manager. I have been a Certified Clinical Research Professional since 2012, and was a co-chairperson for the Arkansas Chapter of SOCRA from 2016 to 2020. During my time as co-Chair, we provided many opportunities for our chapter members to receive continuing education and to network. We even earned the Chapter of the Year Award three of those years. Because our chapter includes the entire state of Arkansas, reaching all of our members has presented unique challenges. The increased use of virtual platforms has helped and has opened doors to more options. With the ever-changing landscape of clinical research, continuing education is very important. Having a network of people to exchange ideas with and learn from is equally important. As a director on the SOCRA Board of Directors, I plan to bring a new perspective and new ideas to the Board to make sure all SOCRA members are able to receive the education and networking opportunities they need.

Vision Statement

SOCRA has been an integral part of my journey in the clinical research realm. One thing that stands out for me is how much the society upholds integrity while being nimble and agile. Time and time again, as researchers, we are tested on our integrity in many different ways. Each time I am challenged by this element I look to SOCRA – having that under my belt gives me greater confidence in the work that I do as a clinical research professional.

If elected, which I am profoundly honored to be nominated, I hope to continue the mission of the society with persistence and value-added leading by example and by expanding the network connectivity with the caveat of excellence, quality, integrity, innovation, equity and beyond at all times.

Vision Statement

My involvement in the planning for Annual Conferences and hosting other conferences and webinars has given me great insight into the mission and organization of SOCRA. As my career has shifted from pediatric research to pandemic research and response, I look forward to becoming involved in more SOCRA programs in new ways.

Throughout my years so far in this field, the thing I have enjoyed most is coaching and supporting research staff and empowering them to do their work in the most ethical and compliant ways. Supporting the professional development of clinical research professionals is crucial in this ever-changing landscape. The pandemic has changed how we do this important work, while also elevating the importance of rapid high-quality clinical research.

Becoming a member of the Board of Directors would allow me to further support the education and professional development needs of our clinical research professionals, and I would be proud to serve the research community in this way.

Vision Statement

I have been a Clinical Research Professional with over 20 years of clinical trial management experience in several therapeutic areas focusing on medical oncology, hematologic malignancies and diabetes mellitus trials. Throughout my extensive leadership experience, I have served multiple different roles in clinical trial management for Investigator Initiated, NCI/SWOG Cancer Research Network and Pharmaceutical Industrial trials. My work involves designing and implementing Electronic Medical Record (EHR), Electronic Data Capture (EDC), and Clinical Trials Management (CTMS) systems. My clinical research background includes clinical trials management system development, legacy data migration, quality assurance, and coordination of clinical research training to promote Good Clinical Practice (GCP) and Clinical Data Management (CDM) practice.

In these unprecedented times, it has never been more essential that we work to accelerate the progress of clinical research. This dynamic field is constantly evolving, and I am committed to bringing diversity, equity, and inclusion to the field of clinical research by recognizing the importance of bringing diverse perspectives together. As a passionate advocate for clinical data management and as the Chairperson of the Greater Los Angeles SOCRA chapter, I will continue to collaborate and provide continuing research education and professional networking opportunities to the next generation of scientists and research coordinators who will revolutionize the future clinical research industry. I am committed to sharing my expertise in best research practice with my fellow members. Thank you for your support and for the opportunity to serve on your SOCRA board.
